CORE COMPETENCIES

Web Development

Software Development Life Cycle

Coding & Design

Requirement Gathering

Unit Testing

Incident Resolution

Responsive Design

TECHNICAL SKILLS

React.js

JavaScript

HTML5

CSS3

JSX

RESTful APIs and Context API

React Hooks and Custom Hooks

React Router

Code Splitting

Redux

React Virtual DOM

Tailwind CSS

Git

Bootstrap

SOFT SKILLS

Communicator

Collaborator

Detail-oriented

Problem-solving

Analytical

EDUCATION

2020 B.E. (Computer Science) from Tatyasaheb Kore Institute of Engineering & Technology, Kolhapur

PERSONAL DETAILS

Date of Birth: 26th September 1996

Languages Known: Hindi, English, Marathi and Kannada

Address: Pune, Maharashtra, 411027

SNEHAL BIRAJDAR

FRONT-END DEVELOPER

PROFILE SUMMARY

- Offering **nearly 2 years** of experience in Web Development, specializing in Front-end Software Development
- Developed software solutions** by studying information needs, conferring with users, studying systems flow, data usage, and work processes
- Liaised with users for requirement gathering;** prepared functional specifications and low-level design documents
- Conducted thorough Unit Testing, identified and resolved bugs and issues** before deployment, ensured high-quality code and application functionality
- Updated knowledge by studying state-of-the-art development tools,** programming techniques, and computing equipment, participating in educational opportunities, reading professional publications and maintaining personal network
- Collaborated with cross-functional teams,** including designers and back-end developers, to ensure seamless integration and delivery of projects

ACHIEVEMENTS

- Received the “Star Achiever” Award** for identifying areas of improvement in the iEvolue project and implementing effective solutions, 2022
- Recognized as a “Best Team Player”** for exceptional coordination and collaboration with team members

WORK EXPERIENCE

Tata Consultancy Services, Pune

Apr'21-Jan'23

Software Engineer

Key Result Areas:

- Developed dynamic and interactive websites with React.js and React Hooks, improved website performance
- Built single page applications to streamlined navigation, delivered a seamless user experience
- Applied code splitting to reduce webpage loading time and improve functionality
- Created reusable components and customized hooks, reduced development time and improved code maintainability
- Generated visually appealing website for various devices to enhance user interaction
- Gathered data from RESTful APIs and seamlessly integrated them into the React applications
- Managed and tracked code alterations through Git, ensured effective collaboration with team members
- Collaborated with cross-functional teams to ensure seamless Project Execution

PROJECTS EXCEUTED

Data Reporting and Visualization Tool

Jul'22-Jan'23

Key Result Areas:

- Retrieved data from REST APIs and presented it in a tabular format on dashboards
- Developed back-end APIs by using Node.js
- Generated an intuitive UI to display charts, graphs, and plots
- Created and implemented filters to allow data filtering based on various parameters including data-time range, scores, and courses
- Added sorting, searching, and pagination features for enhanced dashboard functionality

Employee Training Portal (iEvolue)

Jun'21-Jul'22

Key Result Areas:

- Created dashboards for several user including trainees, supervisors, and managers, incorporated reusable components like navigation bars and notification toasts
- Managed user registration and profile updates & deletes
- Implemented a comprehensive assessments page to track trainee courses and exams, including scores
- Developed course management feature for supervisors to assign specific courses to new trainees
